

Florida Bearings, Inc.

Variable Frequency Drive Division

www.floridabearings.com\vfd-division.html

Are you running an AC motor without a VFD?

You're missing out on...

- Improved motor efficiency
- Lower starting currents
- Lower maintenance costs
- Prevent water hammer damage
- Reduction of thermal and mechanical stresses on motors and coupled components, during start-ups

We stock VFD's up to 25HP!

Why is this important when dealing with ANY distributor? The answer is simple....

TIME IS MONEY.

If you are down, you're not making money. With Florida Bearings, you won't have that problem.

TECO **Westinghouse**

We're now an authorized distributor for **TECO-WESTINGHOUSE!**

For years, TECO-WESTINGHOUSE has been committed to manufacturing quality VFD's and controls that meet or exceed requirements for both variable torque and constant torque applications.
